

## Sailfish 316 Dual Console

Balance fishing prowess and family fun.

Building on the popularity of its 245 and 276 Dual Console (DC) models, Sailfish's new 316 DC delivers a larger option for boaters seeking a roomy boat that factors in offshore performance and a full array of family friendly amenities.

When it comes to fishing, the 316 DC has a nearly 10-foot beam and exceptional leg room in the cockpit to let anglers fish side to side without compromise. Standard features include a 30-gallon circulating baitwell with LED lighting, two in-floor fishboxes, 14 rod holders and a portside dive door.

The 316 DC is also well scripted for family and friends. Sailfish has created a three-zone social layout with roomy seating with an array of smart features, such as the sandbar cooler built into the portside swim platform. Simply grab a cold beverage without having to climb back into the boat dripping wet. There is a transom freshwater fill and shower, recessed boarding ladder, plus a raw-water washdown.

The open bow section has comfortable loungers, an optional table, insulated under-seat storage and USB phone-charging ports. For additional entertaining amenities, Sailfish offers a few packages: A galley/wetbar package, including refrigerator, wine rack coolers, countertop and sink arrangement; as well as an optional entertainment package that includes a ski tow bar, underwater LED lights, and an awesome sound package. Tactfully tucked away in the console is a wet head with electric marine toilet, faucet sink, mirror, storage and skylight.

At the helm, the dash accommodates up to 12-inch Garmin MFD screens. All of this is protected overhead by an integrated hardtop with a frameless, full-height windshield. Sailfish uses a new sliding center panel that eliminates the need to slip over a heavy pane of glass to access the bow.

There is plenty of bang for the buck with the new Sailfish 316 Dual Console ★

### » SPECIFICATIONS
