

SAILFISH

SAILFISH

DEMAND the **DIFFERENCE**

THE SAILFISH STORY

Sailfish Boats was established in 1986 as an individually owned and operated boat manufacturer, dedicated to building quality saltwater fishing boats, at an affordable price.

Over the years **Sailfish** has become one of the leaders in the marketplace with innovative designs, functional layouts, user friendly amenities, and continues to be a family owned and operated business.

Located in Cairo, Georgia, **Sailfish** still builds boats one at a time in its nearly 100,000 square foot facility, with the same focus on quality, style and value as it did in 1986.

All **Sailfish** boats are conceived and developed in house, with design input from you the consumer, and with a watchful eye and listening ear on the fishing professionals.

Our research and design team, takes the information we gather, from the drawing board to the finished product, under the careful supervision of experienced boaters, and fishermen on staff. The results are boats with the latest design, styling and fishability that makes boating a pleasurable experience.

Performance is also an integral part of every boat we manufacture at **Sailfish**, with each model designed and engineered for safety, comfort and dependable service. Inshore or offshore, **Sailfish's** soft riding hulls and solid construction will get you there and back day after day, in style.

Sailfish has become a leader in Saltwater boat design, through continuous product development, testing, and use of the best materials available. Members of the National Marine Manufacturers Association and the United Marine Manufacturers Association, **Sailfish** has kept on the leading edge of modern manufacturing materials, techniques and construction methods, in an effort to bring to the consumer the very best value in boating.

With today's busy lifestyles we want you the customer to have confidence in the boat you buy, and to enjoy your time on the water. Whether fishing or cruising, be assured that the experienced craftsmen at **Sailfish** have done their part to make your boating experience hassle free, and the most enjoyable recreation available.

SAILFISH CONSTRUCTION

At **Sailfish**, we take pride in building fine quality boats, able to withstand the rigors of everyday use in the marine environment.

Every model is hand laminated by experienced boat builders using quality materials, with durability in mind.

Sailfish "Sailtech" stringers are engineered and constructed in house and custom made and fit for each different model.

Constructed of fiberglass, these foam-filled stringers, the backbone of the boat, provide tremendous strength, and will last the life of the boat. Our "Sailtech" transoms are high density urethane composite foam, encapsulated in layers of fiberglass, for years of dependable service.

Nico - Core™

All models are reinforced where needed, with high tech knitted materials for the strongest possible laminate, without unnecessary weight.

Sailfish hardware is saltwater tested tough, with stainless steel rails and fasteners, through bolted in place, and top quality plumbing and electrical systems, to keep you on the water and out of the shop.

Premium gel coats and resins are used throughout the lamination process, giving **Sailfish** one of the most durable finishes available. All trim items have been thoroughly tested for their ability to withstand the saltwater marine environment, and quality marine grade upholstery is used exclusively.

Our fuel systems utilize top quality certified marine tanks and fuel lines, and all have stainless steel fuel fill 's and vents for trouble free performance. Polyester bonding agents are used to attach the hulls and decks on all models, effectively making hull and deck one unit, for maximum rigidity and strength. Water line fittings are sealed with urethane adhesives, for added protection, and all joints caulked with marine silicone sealers to minimize leaks.

At **Sailfish** we know that a boat is a big investment of both money and time. We strive to deliver the very best product, and the very best value on the market today. And we will continue to give you the customer, the quality you deserve.

DEMAND the **DIFFERENCE**

266 CC *SAILFISH*

Designed from the start to be a true offshore boat with its deep V variable deadrise and generous bow flair, the 266 CC delivers one of the driest and softest rides in offshore fishing. With its standard 60 gallon livewell and long list of other standard features, there is no better value in its class. The style is clean and modern for today's demanding fisherman, available with single or dual Yamaha engines.

Specifications:

	Standard	Metric
LOA Hull Only	26'	7.92 M
Length Rigged	28'	8.53 M
Beam	9'	2.74 M
Fuel Capacity	200 Gals	909 L
Fresh Water	15 Gals	68 L
Approximate Weight	3850 lbs	1746.3 KG
Cockpit Depth Rear	28"	71.12 CM
Cockpit Depth Front	38"	96.52 CM
Max Horsepower	450 H.P.	336 KW
Rec. H.P. Single	250 H.P.	186 KW
Draft - Hull	18"	45.72 CM
Deadrise	Multi Angle / 22° - 24°	

Deluxe Leaning Post with 60 Gallon Livewell (Standard Equipment)

DEMAND the DIFFERENCE

Yamaha's Dual Overhead Cam Design features less moving parts than conventional single overhead design, for greater reliability.

- Portable Marine Head
- Stainless Steel Pop Up Bow Light
- Stainless Steel Rod Holders (PR)
- Tilt Steering

Optional Packages:

Pro Fishing Package – Tilt Steering, White, Blue, Seafoam or Yellow Hullsides, S.S. Rubrail and Add'l. Battery Switch

Offshore Tournament Package – Auxiliary Livewell Pump, Flush Mount Cleats & Bow Light, 4 Add'l. Rod Holders, Dlx. T-Top

236 CC *SAILFISH*

A true 23+ foot boat, the 236 CC is the largest in its class! Although it is a little sister of the 266 CC, you have to look close to tell the difference. As with all **Sailfish** Boats, she's loaded with standard features and ready for offshore fishing with its variable deadrise, deep V and wave slicing bow flair. Whether you tournament fish (which the 236 CC has and is) or just enjoy the best, driest ride available while fishing, the 236 CC is the obvious choice.

Specifications:

	Standard	Metric
LOA Hull Only	23' 6"	7.16 M
Length Rigged	25' 6"	7.77 M

Whatever your mood; fishing, skiing, or just cruising with family or friends the **Sailfish** 198 Dual Console will do it all.

Seating for six, wrap around, walk through windshield and storage everywhere you look make this boat as functional as it is stylish. The 198 Dual Console fishes as well as it plays, with standard livewell, insulated fish box and rod holders galore.

Like its brother the 198 CC the 198 Dual Console excels in the bays and intercoastal water ways, and works just as well in freshwater.

Equipped with a factory installed Yamaha Outboard the **Sailfish** 198 Dual Console is both functional and dependable.
