

SAILFISH

For 21 years Sailfish Boats has provided the saltwater enthusiast with a variety of reliable, stylish and user friendly boats capable of withstanding the rigors of the inshore and offshore environment. Over that time, Sailfish has grown to be one of the largest manufacturers in its class. With a modern facility located in Cairo, Georgia, just a few miles north of the Florida state line, Sailfish is able to distribute to a national dealer network, offering top quality service no matter where you are.

Privately owned, Sailfish is managed by a team of owners and marine industry professionals who are dedicated to designing, building, and delivering the best quality boat your money can buy.

Quality is our number one goal when designing and constructing our product. Every Sailfish boat is built to rigid quality standards that are monitored throughout the manufacturing process. Critical systems such as fuel, electrical and plumbing are tested and retested before being certified ready for delivery.

Performance and function demanded by today's consumer are also integral to the Sailfish lineup. Sailfish has become the leader in inshore and offshore hull design by incorporating advanced design running surfaces, matched to each individual model to maximize performance. From our variable deadrise deep vee offshore boats to our transitional bay and inshore series hull designs, every Sailfish boat offers outstanding performance, soft ride and fuel efficiency.

Style and comfort are also crucial ingredients of the boating experience. Every model we build is functional and user friendly, incorporating as much storage as possible, maximizing available seating positions and offering multiple options and accessories. A variety of colors, trim levels, and outstanding modern styling make Sailfish boats stand out from the pack.

We thank you for considering our line of Sailfish boats for your next purchase. Examine closely, the features, quality of construction, and attention to design and detail we incorporate into every boat we build.

The outside of a boat, the part you can see and touch, is often indicative of the quality you find inside. Every Sailfish model stands above the rest when you compare our outstanding fit, finish and design. However it's the things you cannot see that are vitally important to safety, ease of maintenance, and long term value.

At Sailfish, we use only the best resins and modern fiberglass materials to insure maximum strength and durability. Premium gel coats are used in all exterior applications, selected for the quality of finish they produce and long lasting protection from the elements. All core materials are warranted against rot for the life of the boat, and bonded into the primary laminate, for the ultimate in strong modern construction.

Hulls and decks are joined by stainless fasteners and synthetic marine adhesives, which combine to create one unit, capable of lasting a lifetime.

Our SAILTECH construction combines composite transoms, stringers and bulkheads into one cohesive unit, maximizing strength and durability, while minimizing flex. Electrical systems are manufactured to strict ABYC standards, and all electrical functions are tested and approved on every boat we manufacture.

Each of our fuel systems are pressure tested before leaving the factory to insure no leaks are present. Critical safety hardware such as rails, cleats, and handholds are thru bolted for long term durability and rough duty, not screwed down, a method many of our competitors use. Every Sailfish boat contains closed cell foam, reducing noise and vibration for a quieter ride and adding additional flotation, extending beyond Coast Guard requirements.

All Sailfish boats are factory rigged with dependable Yamaha outboard engines, matched up for reliable performance. Sailfish incorporates some of the best bilge and livewell pumps available, insuring dependable performance, and long term durability. Through continued product refinement, and unwavering effort to build the best quality and value in our class, we believe our Sailfish line-up stands above the rest.

SAIL FISH

DEMAND THE DIFFERENCE

[30-06CC]

FEATURES

Serious offshore capability and dazzling style make the NEW Sailfish 30-06 CC the best performing big water boat we have brought to market. Our new VDS-5 hull design is the softest riding, driest hull in Sailfish history and the multiple deadrise, variable lift plane running surface, makes the 30-06 CC both responsive, and extremely agile for a boat this size. But beyond the standards lies the real heart of Sailfish design, function, comfort, and practical ergonomics. Look over other brands in this size range, we think you'll agree that the Sailfish 30-06 CC is the best of the best, and represents the clear choice in offshore fishing boats available at any price.

FEATURES

Want the most versatile 21-foot boat on the market? The Sailfish 2100BB is for you. This boat is adaptable to both fresh and saltwater elements – inshore or offshore. The aggressive 18° deadrise hull means a soft ride in big water. The wide beam gives you the advantage in shallow flats draft waters or deeper waters on the bay. The 2100BB is a fisherman's dream with features like large front and rear casting decks, 12 rod holders, multiple storage locations, and the capacity of three live wells. The 2100BB can be tailored to fit with multiple helm seating styles to meet and exceed your expectations.

The Sailfish 1900BB redefines the multipurpose bay boat. An aggressive 18° deadrise hull with 21" deep sides, standard 16-gallon bait well, optional catch and release live well, and abundant storage means you're ready for a full day fishing trip. The 1900BB is, by far, the most versatile boat in its class with seating capacity for 8 and easy access built-in boarding ladder. It doesn't matter if you're a weekend warrior or a professional angler, at the lake or in the bay, inshore or offshore the 1900BB gets the job done.
